Koneti Dheerajkumar

B.Tech - (2023-27) +91-9704566517
Computer Science & Engineering (AIML) dheerajkoneti719@gmail.com
Kalasalingam Academy Of Research and Education LinkedIn | GitHub

Objective

AI ML undergraduate and aspiring AI, Full-Stack, and Java Developer seeking a challenging internship to apply my skills in Java, SQL, C and modern web technologies to build scalable, intelligent, and user-Friendly applications while gaining hands-on industry experience.

Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. CSE-AIML	Kalasalingam Academy Of Research and Education	7.8	2023-27
Senior Secondary	Sri Chaitanya Junior College	88.2%	2021-23
Secondary	Blue Moon Group Of Institutions	100%	2020-21

Projects

- **Campus Lost & Found Portal** *Jun 2025 – Aug 2025*
  HTML, CSS, Firebase, MongoDB LinkedIn
  – Built and deployed a secure lost-and-found platform with user authentication, real-time chat, image uploads, and geolocation mapping.
  – Enabled students to post, track, and claim items through a structured workflow with a mobile-first UI design.
- **MediTriage AI** *Feb 2026 – Feb 2026*
  Python, Flask, Scikit-Learn, SQLite, Chart.js, Google OAuth GitHub
  – Designed and deployed an AI-powered hospital triage system that classifies patient risk levels (High, Medium, Low) using machine learning models trained on healthcare datasets. Implemented role-based dashboards (Admin, Doctor, Patient) with secure Google OAuth authentication and patient case tracking features. Built analytics dashboards and AI prediction monitoring using Chart.js and enabled dataset upload with automated model retraining for improved accuracy.
- **AI-Based Public Scheme Eligibility Advisor** *Jan 2026 – Jan 2026*
  Full Stack AI Web Application Live Demo
  – Built and deployed an AI-powered web platform that helps citizens discover government schemes they are eligible for through a conversational chat interface. Implemented profile-based eligibility analysis using parameters such as age, income, state, and occupation. Developed responsive frontend using React.js and Tailwind CSS with secure user authentication. Designed backend APIs using Flask and integrated rule-based + AI-assisted eligibility logic.

Technical Skills

- **Programming**: Java, Python(Basics)
- **Development**: HTML, CSS
- **Databases**: SQL
- **Tools**: Github, VS Code
- **Data Visualization**: Power BI

Certifications

- Python Basics
- HTML and CSS
- Oracle Certified Foundations Associate
- Agentic-AI Workshop
- Power BI Projects

Extra curricular activities/Achievements

- Participated in the Genesis AI Hackathon
- HackForge 24-Hours Hackathon
- Detaithon 24-Hours Hackathon
